12U Cabinet [540*400] WITH FAN

Below are the typical technical specifications for a 12U cabinet with a fan, based on common models with external dimensions close to **540mm width and 400mm depth**.

Attribute	Specification
Rack Capacity	12U (approx. 21 inches of vertical space)
External Width	Approx. 540mm - 600mm (21.65" - 23.63")
External Depth	Approx. 400mm - 450mm (15.7" - 17.72")
External Height	Approx. 600mm - 640mm (23.6" - 25.2")
Mounting Standard	19-inch EIA-310-D compliant
Construction Material	Cold-rolled steel frame (e.g., 1.2mm thick SPCC), powder-coated finish
Static Load Capacity	Typically 50kg - 90kg (110 lbs - 200 lbs)
Cooling System	Integrated top-mounted cooling fan(s) for ventilation
Front Door	Lockable, reversible tempered glass or perforated steel
Side Panels	Removable with quick-release locks for easy access
Cable Access	Ports/entries on top and bottom panels

Mounting Type	Wall-mountable (16-inch center-to-center hole spacing) or floor-standing
Color	Black (RAL 9017) or Grey (RAL 7035) finish
Protection Degree	IP20 (for typical indoor models)
