

CABLE ZIP 28MM WHITE 50M

The specifications for the **Noveau Safe-T-1ST 28mm White Cable Zipper (50m)** are detailed below. This product is designed for continuous cable management in large-scale industrial and commercial installations.

Technical Specifications

- **Diameter:** 28 mm (suitable for approximately 5–8 standard power/data cables).
- **Length:** 50 meters (supplied as a continuous roll).
- **Material:** Virgin HDPE (High-Density Polyethylene), which is durable, flexible, and chemically resistant.
- **Color:** White (with a clean, professional finish to blend with light-colored surfaces).
- **Item Code:** NSFZ28WT0050.
- **Packaging:** Industrial/Commercial pack (bulk roll).
- **Operating Temperature Range:** Generally -30°C to +85°C (based on standard flexible HDPE cable organizers).
- **Warranty:** 1-year manufacturer warranty.

Construction & Design

- **Form Factor:** Flexible, resealable "zipper" sleeve or spiral wrap.
- **Installation Tool:** Typically includes one specialized **Zipper Slider Tool** in the pack to facilitate rapid cable insertion.
- **Safety Standards:** Used to meet safety audit requirements by protecting against wire abrasion and reducing trip hazards.
- **Customization:** Can be easily cut to any required length with standard scissors.

Manufacturer Info

- **Brand:** Noveau Safe-T-1ST.
- **Country of Origin:** India.
- **Certification:** Recognition by Startup India.
