

Lenovo IdeaPad Slim - Core i3 | 8GB RAM | 512GB SSD | Arctic Grey

Product Highlight Description

The Lenovo IdeaPad Slim is a sleek, lightweight 15.6-inch laptop designed for everyday computing, productivity, and multimedia use. It combines a responsive Intel Core i3 processor with 8 GB of RAM and a fast 512 GB NVMe SSD for smooth performance in web browsing, office applications, video streaming, and multitasking. The Full HD anti-glare display delivers crisp visuals with reduced reflections, while Intel UHD Graphics handles HD video playback and basic graphics tasks. The laptop includes modern connectivity such as Wi-Fi 6, USB-C with power and display support, HDMI, and a dedicated SD card reader. Built in Arctic Grey with a slim profile and long battery life, this IdeaPad Slim offers great everyday performance for students, professionals, and home users.
